

Confusion matrix for the 'number' variable. The x-axis is 'Predicted label' (0-20) and the y-axis is 'True label' (0-20). The diagonal is mostly 1.00, indicating high accuracy. There are a few off-diagonal values: (8,8)=0.03, (8,9)=0.48, (18,18)=0.44, (18,19)=0.56, and (19,19)=1.00. A color bar on the right indicates the percentage scale from 0.0 to 1.0.
